

SENDIASS is offering a free, informal online session for parents and carers spotlighting on what is known as the 'graduated cycle' of SEN support and how this works for pupils with vision impairment.

This session will be supported by the Head of Services for children and young people with vision and multisensory needs.

The session will explore:

- The key principles of SEN support
- The 4 stages of the graduated cycle of support and how you and your child are involved;
- Examples of SEN support in schools
- What happens if a pupil needs further support.

We are keeping the group number small so that we can respond to as many of your questions as possible.

October 13th 2020

10:30am – 11:30am
